

A wide selection with no minimum

We offer a wide selection of quality fixtures in a variety of materials and finishes. Standard and custom designs are available with no minimum purchase requirements.

We invite you to review photos of our installations in stores

The first section of our catalog is a photo review of stores with our fixtures. You may find just the right combination of fixtures to fit your merchandising needs. Reference page numbers make it easier to find the fixture specifications and pricing in the product sections of the catalog.

Designer's Choice Perimeter System

Introduced in 2003, our Designer's Choice System comprises a major portion of our display fixture sales. Using Designer's Choice as the base, other wall and floor display fixtures and options easily combine to fit your floor space and display needs.

Custom and Modular Cash Wrap options

We have expanded our stock Cash Wrap Modules which can be arranged in a variety of configurations to fit your specific floor space and customer service needs. Stock and custom Cash Wraps are shown in many shapes, sizes and finishes. *See pages 177-204*

Custom fixtures and Point-of-Purchase (POP) Displays

See pages 205-208. Custom designs are also shown in photo review.

Custom Designs

If our stock designs don't fit your needs, we will modify existing designs or build fixtures that fit your exact specifications. Special design work may require an additional charge.

Need help with fixture layout?

At no additional cost, we will help you lay out your store with our fixtures. Just send us a sketch of your retail space with dimensions and indicate which fixtures best fit your display needs. Our CAD experts will prepare a drawing and cost estimate.
