

## Metal Brackets

Powder-coated metal brackets are used with Dowel Panels, NEW-Wall, Slatwall/SlatRail and NEWLOCK®. The bracket backs are specific to each system. Common arms, which are welded to the bracket backs, secure interchangeable shelves, hangrods, and other accessories. Metal bracket backs are also attached to our wood faceouts.

Metal brackets are available in standard black and pewter. Other colors are available in volume, by request.

Bracket backs (above) are specific to each system:

1. NEWLOCK® (FIX-NLBK)
2. Slatwall/SlatRail (FIX-SWBK)
3. NEW-Wall (heavy weight) (FIX-NWBK)
4. Dowel Panel (FIX-DSBK)

**IMPORTANT:** To use glass shelves with metal brackets a vinyl safety strip is required. HDW-GLS4-SLEEVE1 (set of 4) \$1.00

Common bracket arms are shown at right:

1. 4" Straight Metal Bracket for hangrods or as single faceout
2. 12" Straight Metal Bracket for shelves & hangrods
3. 12" Straight Faceout Metal Bracket for shelves, hangrods or as faceout
4. 14" Slanted Metal Bracket for shelves
5. 14" Slanted Faceout Metal Bracket for shelves or as faceout
