

# Designer's Choice Perimeter System Upright Panels

= uses optional accent stripe  
+ uses optional laminate

## Front Moulding Options

Upright Panels range in thickness from 3/4" to 6-1/2" and can be mixed within the same run. Stock moulding patterns for each thickness are shown below. Color stripes (see page 6) can be added to moulding patterns which have an = sign. Laminates can be added to moulding patterns with a + sign. Moulding patterns with both an = and + accept both color stripes and laminates.

standard Oak-grained and Maple-grained Melamine. Other Melamine options are available by quotation.

## 1-3/4" Profile Trim Line Upright Panel Options

Trim Line Upright Panels are 3/4" thick. Moulding Options are 1-3/4" wide.

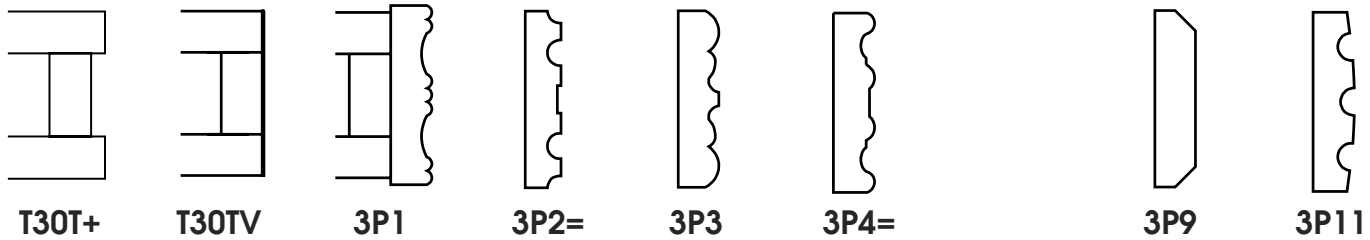

## 3-1/4" Profile Grand Line Upright Panel Options

Grand

l

3" solid wood. Moulding Options are 3-1/4" wide.

## 6-1/2" Profile Imperial Upright Panel Options

Imperial Upright Panels are 4-1/2" or 6-1/2" thick. Moulding Options shown are for 6-1/2" Upright Panels only. Call for moulding for 4-1/2" Upright Panels. The bottom row patterns use two pieces of the 1-3/4" wide moulding patterns shown above with a space for laminate between them.
