

NEW-Wall (N*W)

The NEW-Wall System offers unique merchandising capabilities. Designed to carry a full load, NEW-Wall is stronger than slatwall and more versatile than outriggers, shelving or racks.

72", 82", 92", 96" heights. Slots, 3" on center, accommodate heavy-duty brackets for shelves and hangrods. Accessories available for 24", 36" and 48" on-center mounting. SlatRails rest on pins inserted into the sides of standards. Use NEW-Wall Accessories or most standard slatwall accessories.

NEW-Wall standards easily attach to any surface. Concealed metal brackets lock onto bolts or screws which are tightened through the slots. (Bolts/screws not provided.) The Toggler® Anchor System is available to anchor NEW-Wall Standards to hollow building materials. Ships KD.

See page 154 for SlatRail/Slatwall accessories

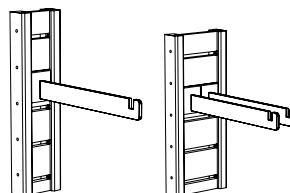

We recommend the Toggler® Anchor System to attach fixtures to hollow building materials including drywall. The unique one-piece steel anchoring channel pivots

on durable installation legs. The sliding cap ratchets down the legs to securely "capture" the wall between the channel and cap. Legs snap off so cap is flush with wall. Insert bolt through fixture into cap and tighten. Minimum clearance behind wall is 1-7/8".

Single & Double Standard. Double Standard allows two brackets side-by-side for inline shelves and hangrods.
