

Modular & Custom Cash Wraps

Cash Wraps and counters are an important part of any retail operation. We have a wide range of modular cash wraps that work well in most retail spaces. If you have special retail needs, we can design you a completely custom unit. Our modular cash wraps are available in straight or curved and are already designed to help keep the costs down and the lead time short. Since the design may be yours, ours, or a combination of

the two, Custom designed cash wraps will set your store apart from your competitor. And, custom units can be made from just about any material you require. Either modular or custom, we offer many solutions to your cash wrap needs. As with our display fixtures, modular units are offered in Maple or Oak, Clear Lacquer or Stain, with your choice of laminate top. Please note that all modulars (even those manufactured out of hardwood) require a laminate top. Modular designed units can be seen from pages 180 to 197. Examples of custom cash wraps are on pages 198 through 204.

Curved Counter/Cashwell Units

Curved Counter Corner Units can be built in two pieces for easier installation. More affordable one-piece units (show below) are available if installation access allows. Includes two open adjustable shelves and one drawer.

See page 180

#X*S-0961-0B42 60" Curved Counter/Cashwell
24" D x 73" W x 42" H

Straight Cashwell/Counter Combinations

These straight units serve well as stand-alones. Includes two open adjustable shelves and one adjustable shelf behind the doors.

Flush-mounted pulls. Grommet access for IT cable.
