

Use standard modules for a curved Cash Wrap

Below are two curved modules forming a one-quarter circle Cash Wrap. The dimensions of a curved Cash Wrap will depend on the number of modules included. The cost varies with the number of modules and options ordered. *See page 179*

Use standard modules for simple Cash Wrap configurations

The Cash Wrap below includes straight counters combined with 45° fillers. Most counters, whether modular or custom are made in sections for more convenient handling and shipping. The top is standard laminate with the sides constructed from maple clear lacquer. *See pages 191 & 193*
